Unit188

Company fact sheet

Entity

Registered name	Unit188 Technologies Private Limited
CIN	U62011PN2026PTC262692
Date of incorporation	18 November 2026
Registered office	Pune, India

What we do

Unit188 builds and licenses software that records how each AI decision in regulated finance was reached, at the moment it is made, so an institution can answer a review with evidence.

Sector	Software products for regulated finance (RegTech and FinTech)
Model	Annual software subscription per product
Stage	All four products live. Enrolling our first design partners.

Products

ZeroTrust Check — Live
Assesses whether an institution could explain its AI decisions today, and keeps the reasoning behind each one.

Suchak — Live
Inspects AI codebases before release. Each finding is mapped to a framework and scored for confidence.

Risk Copilot — Live
Risk calls that explain themselves, for insurers, lenders and any team that underwrites or evaluates risk. A person makes the final call.

ComplyTrack — Live
Regulatory change intelligence. Turns each new circular into assigned actions with owners, due dates and evidence. India first.

Founder

Founded by a fintech product leader with more than 18 years building platforms for regulated financial institutions.
